## SPECIAL HANDLING REQUIREMENTS FOR TECHNICAL INFORMATION

| I. | Purpose | е |
|----|---------|---|
|    |         |   |

- To prescribe policy and procedures for the handling of certain technical information related to the sensor systems employed by the National Reconnaissance Program (NRP).
- To assure the availability, within the concepts of sound security, of data related to NRP technology as required by the intelligence community to accomplish effective planning and programming for and exploitation of the products derived from the program.

## II. Applicability

Documents,

The provisions of this policy are applicable to all technical information specifically identified by the caveat "SPECIAL HANDLING REQUIRED--PROVISIONS OF COMOR-D-1/9 APPLY."

| III.  | Policy  |
|-------|---------|
| 11.1. | T OTICA |

| NRP technology will be classified as appropriate and specifically identified when they are provided the intelligence community.   |      |
|---|------|
| B. Recipients of such materials will insure that they are afforded special handling with dissemination limited to those individuals with a clearly defined "must-know."   |      |
| C. Dissemination of technical information relating to NRP which are not yet in operational usage will be limited to key staff members responsible for planning and programming for the intelligence product.                          | 25X′ |
| D. Dissemination of technical information relating to systems currently employed by the NRP will be limited to those individuals in paragraph IIIC and personnel engaged in the exploitation or analysis of the intelligence product. |      |
